**Presentation by Dr. Susan Gass
University Distinguished Professor, Michigan State University**

The presentation will focus on classroom use of listening-based videos with a particular focus on the use of captions for language teaching/learning in foreign language classrooms.

Workshop Session

In the workshop session, Dr. Gass will focus on speaking activities that are used to promote language learning. We will see particular examples of how we can use speaking as a way of learning with constructs such as attention, interaction, and feedback being primary in the discussion.

The Council on Language Instruction
